Sipsmith Distillery Tours

Step Into The Home of The Gin-aissance:

We have always been fuelled by people, purpose and occasionally by gin. In 2009, the Sipsmith founders Fairfax, Sam and Jared set out on a mission to bring gin back to its birthplace, London: to make it the way it used to be made, as it should be made. We pioneered the gin renaissance, with an authentic and exciting story that supports our deliciously sippable gin.

What To Expect:

- Greeted with a seasonal gin tippie at the Sipsmith Bus
- Explore the brand's role in reviving London gin
- Learn about the chequered history of gin
- Get a behind-the-scenes look at our copper stills and distilling process
- Taste our core and limited-edition gins
- A visit to the Gin Shop
